

WELL-BUILT/DEPENDABLE

model **3216**

**SANDWICH MICRO-GROOVED
POLYURETHANE THERMALLY-BROKEN DOOR**

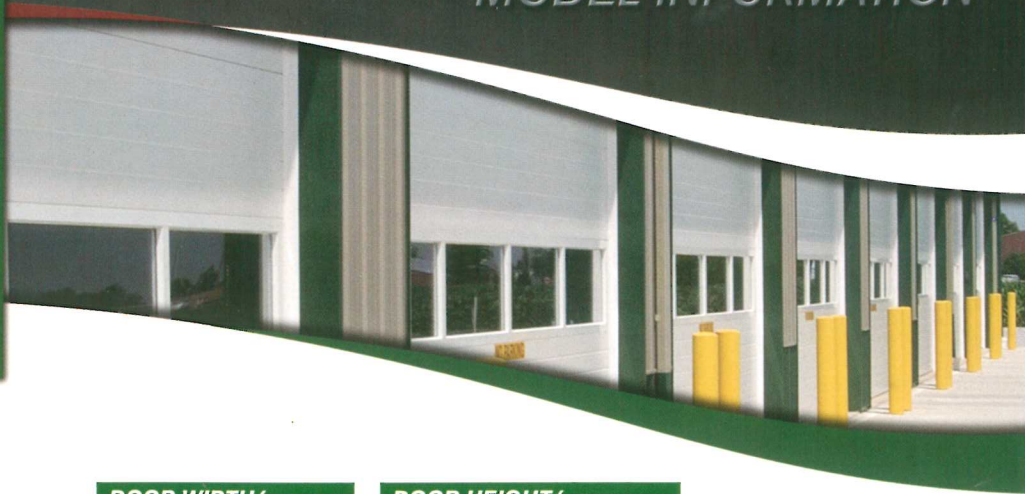

Designed to achieve years of dependable service, each section is urethane filled and thermally broken with a continuous joint seal, making the door unyielding to the outside elements. This high R-value door is available in four colors and a wide variety of window options. This model offers added rigidity and durability when applications require protection second to none.

9' x 7' white with 24" x 12" windows

The Door to Quality.

SPECIFICATIONS

FULL-VIEW

PANEL CONSTRUCTION

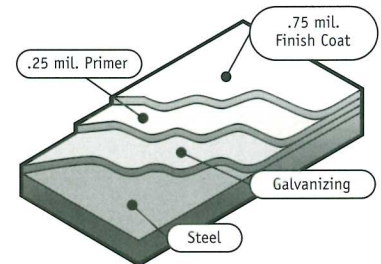

These Models utilize 26-gauge exterior and 27-gauge interior steel skins injected with urethane insulation. The thermally-broken tongue-and-groove section joint

includes a continuous weather seal offering exceptional protection from the elements.

R value - 14.3

PAINT SYSTEM

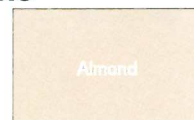

Steel used to produce these doors is hot dipped galvanized. A .25 mil. primer is applied to inhibit rust. A .75 mil. layer of finish coat is applied to insure a brilliant, rust-free finish.
